Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 7 is objected to because of the following informalities. In the phrase "between the user and a system or systems," in order to eliminate improper antecedent basis, "the user" must be changed to "a user." In the phrase "control strips (CS) tautened on a support," in order to make the claim language clear, "are" should be inserted between (CS) and tautened. In the phrase "turns (TU) are appreciably perpendicular," in order to make the claim language clear, "appreciably" should be removed. In the phrase "control srip (CS) and by the other extremiy to a point of the support (9)," "strip" and "extremity" should be corrected for spelling. It is possible other errors exist which have not yet been identified; Applicant is requested to correct any other grammar, punctuation, or spelling errors that might exist within the specification or claims that might be identified. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear how the spring is used in conjunction with or related to the flexible handling bar, strain gauge resistor, control strip, finger control

zones, and support. To clarify claim 7, limitations not unlike those of claims 8-11 must be added in order to render claim 7 itself statutory. No art is being applied because it is unclear what is being claimed in claim 7 without reading the specification or another claim into claim 7.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
